markus.ackermann@bardehle.de

Markus Ackermann is specialized in patent prosecution and litigation within the pharmaceuticals and biochemistry/biotechnology sectors. He has handled patent litigation across Europe, particularly in Germany, France, Italy, the Netherlands, Belgium, Denmark, Portugal, Sweden, and Switzerland.

His technical expertise stems from roles held in academia in both Germany and the USA before transitioning to the patent field. Markus Ackermann has authored numerous publications spanning both scientific and legal domains. Alongside his publishing endeavors, he furthers the dissemination of patent law through workshops held at prestigious institutions like the Max Planck Institute and the Charité Berlin.
