As a patent attorney, Dr. Axel Berger specializes in the fields of life sciences and pharmaceuticals, particularly gene technology, biochemistry, cell biology, immunology, virology, pharmacology, and medical devices. His technical expertise is based not least on his many years of international research activities.

In addition to patent prosecution proceedings, Axel Berger's professional practice includes defending and attacking patents in opposition proceedings. Another focus of his work is the enforcement and defense of IP rights in patent infringement and (parallel) nullity proceedings, both before the relevant German courts and before the Unified Patent Court (UPC).
