ralf.heddergott@bardehle.de

Ralf Heddergott has varied experience in patent prosecution and litigation in the area of electrical engineering, telecommunication, semiconductor technology, information technology and computer technology.

His current practice as a patent attorney particularly focuses on international application proceedings and litigation in the field of mobile communications technology.

Ralf Heddergott is able to draw on his knowledge and experience from his career as a systems engineer for mobile phones and as a delegate in 3GPP standardization bodies for mobile communication systems. In his position as an intellectual property manager for a semiconductor manufacturer, he was responsible for patent portfolios in the fields of mobile communications and semiconductor circuit technology.

Ralf Heddergott holds various patent applications and patents and is the author of several scientific publications in the field of communications.
