kreller@bardehle.de

Maria Kreller-Schober's main areas of practice involve patent prosecution and litigation in the field of chemistry, particularly technical chemistry, chemical engineering, inorganic and organic chemistry.

Maria Kreller-Schober has prosecuted many German and European patent applications and worked on complex patent prosecution cases, such as opposition proceedings and opposition appeal proceedings. Maria Kreller-Schober is part of a BARDEHLE PAGENBERG team of patent attorneys and attorneys-at-law representing a client in the field of construction materials in several litigation proceedings before various German Regional Courts.
